Helpful hints/tips:

1. If your patient is covered by a managed vision care plan, ensure you are giving them their best vision possible by recommending **Varilux® X Series™** lenses, the **most advanced option** within the *Varilux* portfolio.
2. If your patient is **price sensitive**, **Varilux® Comfort Max** can be a good option to provide easy adaptation and flexibility to change posture for all-day-long vision comfort.
