Operating Policies

90 Day “Whatever Reason” Warranty:

A one time remake will be covered with 100% credit for the span of 90 days for the following: Drs. Rx Changes, Frame Changes, Patient Non-Adapts, Lens Upgrades, Lens Downgrades, Patient Satisfaction unless considered a special order (see special order policy).

Patient’s Own Frames:

Singer Optical makes the best effort to keep your patient’s used frames in its original condition. However, Singer Optical is not liable for damage to a used frame.

Cancelled Orders:

Orders at Singer Optical are expedited from the start. If an order is cancelled after the job has been put in process, a 25% credit will be issued.

Shipping:

Shipping is charged \$2.24 per invoice with the service carrier being UPS. Next Day Air shipments must meet 6 order minimum per parcel. Special Saturday and direct-to-patient shipping is available with associated cost, call lab for details.

Scratch Coated Lens Warranty:

All scratch coated lenses are warranted for a period of one year from original order date for a one time identical replacement.

Drilled Rimless:

Drilled rimless lenses will be warranted for two years for Trivex and 1.67 lenses only.

Lens Only Size Warranty:

If a c-size is given, or if the patients frame is traced using a remote tracer, and the lenses do not fit, no credit will be issued. It is always best to send the patient’s frame when available.

Modifications to patients old lens, or new lenses not manufactured by Singer Optical:

Any modifications done to patients lenses or frames are at the risk of the patient and are not covered under any warranty.

Lab Errors and manufacture defects:

Lab errors and manufacture defects will be remade at no charge and expedited. These errors are present at time of delivery and must be remade within 5 business days after receiving.

Multi Pair Discount:

Singer Optical’s multi-pair discount program offers a discount up to a 50% on the lesser expensive pairs ordered for the same patient within 90 days. There is no maximum to the multiple pairs eligible for this discount.

Personal Pairs:

Each Doctor and Doctor’s immediate family is eligible for two free pairs per year with additional pairs available at 50%. Staff is eligible for one pair per year at 50% OR may redeem one free pair by participating in an in person training or webinar.

Trainings, Consulting and Promotions:

Staff trainings are available through your sales rep or Ben Singer at the request of the practice. Independent consulting on brands, products, retail pricing and procedures are also available in efforts to boost product usage and awareness. Call the lab for details.

Match Tint/Match Demo: If “match tint” or “match demo” is used as an instruction when ordering, we will match the current lens in the frame as close as possible, in all aspects. Thus, if the demo is polarized, the new lens will be polarized. If the lens being matched has a mirror, we will attempt to match the mirror. All associated fees will apply, even if not explicitly ordered.

Mirror Colors: Please utilize the NACL catalog of 24 colors when ordering and specify which color you would like by its corresponding color, example 14R. Orders that do not use this ordering system will not be eligible for remakes due to differences in colors. NACL catalogs are available to purchase for \$199.00.

VisionWeb Errors: Electronic orders should be checked before submitting to the lab. Orders that are submitted incorrectly, by forgetting to order a lens treatment or color, such as AR, Transitions or Polarized, will no longer be eligible for the doctor remake policy. Rx changes, frame changes, lens upgrades and downgrades will still remain eligible.

Rush Orders: When an order is placed under a Rush, it is expedited and often moved to the front of the line. When a deadline is given, we work to the best of our ability to make that deadline. If a rush order is cancelled, or the frame is not shipped to us in a timely fashion, an extra \$25.00 charge will be billed.

Specifying Base Curves: Today’s digital lenses are optimized using specific base curve data tables. If a specific base curve is needed, we will do our best to accommodate but are not able to guarantee this. If a base curve is specified that is outside the table and manufactured, these orders will not be eligible for the remake policy.

Volume Discounts

If payment is received by the 10th of every month, a cash volume discount will be rewarded.

Monthly Volume	Discount
\$1,000-\$2,399	4%
\$2,400-\$3,699	6%
\$3,700-\$4,999	8%
\$5,000-\$6,499	12%
\$6,500 or More	20%

Singer Optical welcomes you to pay via check or credit card without processing fees. Credit cards will automatically be processed on the business day closest to the 10th of the month.

If an account were to not withhold their financial obligation, such account will forfeit any and all discounts, packages or programs. Accounts opened out of the area of Indiana, Kentucky, Ohio and Illinois will be required to have a credit card on file to which payment will be automatically processed if account falls more than 60 days past due.
